No pre−operative laboratory testing is required for asymptomatic patients without significant medical problems who are less than 40 years of age.
ECG: Males aged 40 and above require an ECG. Females aged 50 and above require ECG
Pregnancy Test: A pregnancy test is required for all menstruating females, unless not indicated due to sterility. Serum HCG if blood is drawn for other tests, otherwise it will be a urine HCG.
Labs: CBC and BMP are required for patients age 65 and older. BMP is required for diabetic, renal and/or hypertensive patients. FSBS is required day of surgery in diabetic patients, except in patient who have a BMP done day of surgery.
Copies: A copy of a CXR and/or ECG completed in the past 6 months is sufficient in the absence of a change in the patient's health status. A copy of lab work completed in the past 30 days is sufficient in the absence of renal disease. Renal patients must have a K+ completed after their last dialysis treatment before the date of surgery.
IVF: Every patient over age 10 is required to have an IV of LR at KVO rate. Renal patients must have NS at KVO rate

ASU PRE−ADMISSION WELCOME & RULES

1PIN

Welcome to the Pre−Admission Testing Office

Soon you will be undergoing surgery at Coffee Regional Medical Center. You and your physician have elected to have you admitted the morning of your scheduled surgery. In order for us to plan for your care, it is necessary that we meet with you before your surgery. You will be asked to report to the Ambulatory Surgery Department for pre−admission (which includes having a personal interview by a nurse, necessary lab work, x−rays and an EKG done if ordered by your physician). All arrangements will be directed from this area. We look forward to seeing you.

Welcome to the Ambulatory Surgery Department

In order that we might make your stay with us as pleasant as possible, we need to make you and your family aware of the following:

- Proper rest is important to your recovery; therefore, visitors are limited to two (2) per patient. For your safety, we ask that visitors be free of colds, flu, etc. **ONE PARENT / GUARDIAN MUST BE IN THE DEPARTMENT AT ALL TIMES FOR ALL PATIENTS UNDER 18 YEARS OF AGE.**
- Your requests are very important to us. However, once in a while a message gets lost. If your need has not been met within 15 minutes, please ask again.
- We want you to be comfortable and are happy to medicate you, but we do not do it without your request. Please let us know if you are experiencing pain or discomfort.
- **WE WILL CHECK ON YOU FREQUENTLY.** It may sometimes be necessary to awaken you so that we can monitor your status.
- This is a smoke−free hospital and smoke−free campus. **ABSOLUTELY NO SMOKING IS PERMITTED ON CRMC CAMPUS!**
- For your privacy, all the information concerning your stay at CRMC is confidential. The only information the nurses can give is a condition report (stable−guarded−critical).
- For your safety, the hospital holds frequent fire drills so that all staff will know what to do should a real fire occur. Please do not be alarmed by the sound of the fire bells or the sound of all the doors being closed. This is just a routine part of the drill.
- When discharge orders are received, we will arrange for your discharge as soon as possible. Your instructions, prescriptions and answers to any questions will be given to you by your nurse. Please remind us to return your home medications and / or valuables.
- Patients are furnished with meals, ice and beverages according to Doctor's orders. There is a cafeteria and snack bar located on the first floor for the family and visitors to use.

Cafeteria Hours:

Breakfast − 07:30 a.m. − 09:30 a.m.
Lunch − 11:30 a.m. − 01:30 p.m.
