

CONSENT TO SURGICAL OR DIAGNOSTIC PROCEDURES

DO NOT SIGN THIS FORM WITHOUT READING AND UNDERSTANDING ITS CONTENTS

۸.	(1)	I acknowledge and understand that the following procedures which have been described to me are to be performed on the patient:								
		and that as a result of the performance of the procedures there is a material risk that the patient may suffer INFECTION, ALLERGIC REACTION, SEVERE LOSS OF BLOOD, LOSS OR LOSS OF FUNCTION OF ANY LIMB OR ORGAN, PARALYSIS OR PARTIAL PARALYSIS, PARAPLEGIA OR QUADRIPLEGIA, DISFIGURING SCAR OR BRAIN DAMAGE, CARDIAC ARREST, OR DEATH.								
	(2)	I acknowledge and understand that during the course of the procedures described in paragraph (A), conditions may develop which may reasonable necessitate an extension of the original procedures or the performance of procedures which are unforeseen or not known to be needed at the time this consent is obtained. I therefore consent to and authorize								

the persons described in the last paragraph of this consent to make the decisions concerning the performance of and to perform such procedures as they may deem reasonably necessary or desirable in the exercise of their professional judgment, including those procedures that may be unforeseen or not known to be needed at the time this consent is obtained. This consent shall also extend to the treatment of all conditions which may arise during the course of such procedures including those conditions which may be unknown or unforeseen at the time this consent is obtained.

- B. (1) I acknowledge and understand and duly evidence in writing by executing this form that I have been informed in general terms of the following:
 - -1- A diagnosis of the condition requiring the procedures;
 - -2- The nature and purpose of the procedures;
 - -3- The material risks of the procedures (see paragraph (A) above):
 - -4- The likelihood of success of the procedures;
 - -5- The practical alternatives to such procedures; and
 - -6- The prognosis if the procedures are rejected;

and that such was provided through the use of video tapes, audio tapes, pamphlets, booklets, or other means of communication or through conversations with the responsible physician, or medical personnel under the supervision or control of the responsible physician, other medical personnel involved in the course of treatment, nurses, physician assistants, trained counselors, or patient educators.

- C. ** (1) I acknowledge and understand that in addition to the material risks of the procedures listed in paragraph (A) above there may be other risks attendant to the performance of the procedures as there are with any surgical or diagnostic procedure.
- D. ** (1) I acknowledge that there are practical alternatives to the procedures described in paragraph (A) which alternatives reasonably prudent Physicians generally recognize and accept.
- E. ** (1) I acknowledge and understand that the physician, medical personnel, and other assistants will rely on the patient's statements, medical history, and other information provided by the patient in determining whether to perform the procedures or the course of treatment for the patient's condition and in recommending the procedures which have been explained
- F. ** (1) I acknowledge and understand the practice of medicine is not an exact science; and I acknowledge that NO GUARANTEES HAVE BEEN MADE TO ME concerning the results of the procedures.
- G. ** (1) I also consent to diagnostic studies, tests, anesthesia, x̄-ray examinations, and any other treatment or courses of treatment relating to the procedure described in paragraph (A) which may be prescribed or ordered.
- H. ** (1) I also consent that any tissues, specimens, members, etc removed in the course of any procedure may be tested, retained, or preserved for Scientific or teaching purposes and then disposed of within the discretion of the physician, facility, or other health care provider.

CONSENT TO SURGICAL OR DIAGNOSTIC PROCEDURES

- I. ** (1) I acknowledge and understand that this request for and consent to surgical or diagnostic services shall be valid for the responsible physician, all medical personnel under the direct supervision and control of the responsible physician, and for all other medical personnel otherwise involved in the course of treatment.
- J. ** (1) I acknowledge that some or all of the health care professionals performing services in this hospital are independent contractors and are not hospital agents or employees. Independent contractors are responsible for their own actions and the hospital shall not be liable for the acts or omissions of any such independent contractors.

I acknowledge and understand that as appropriate and as determined by the physician, the presence of outside personnel such as: a vendor/manufacturer representative if an implantable device is used, and if a device is used, the representative will assist in the selection and calibration of the equipment and/or device(s) and in the related treatment, and an assistant to the representative. In addition to such outside personnel, there may be an intern; resident; and/or student present in the room to assist and/or observe in the procedure as described above. What these outside personnel are allowed to do will depend upon their skill and the Patient's condition as assessed and determined by the Physician. It is understood that these additional personnel will be under the supervision and direction of the Physician.

I further acknowledge and understand that the physician, at his discretion, may utilize First Assistants, Advanced Practice Nurses, and/or Physician Assistants to perform certain tasks as directed by the Physician during the procedure. These tasks may include skin closure, but it is not limited to this task as the task depends on the procedure and need at the time. What these non–physician medical personnel are allowed to do will depend upon their skill and the Patient's condition as assessed and determined by the Physician. They will be under the supervision and the direction of the Physician.

ASU PRE-ADMISSION WELCOME & RULES

Welcome to the Pre-Admission Testing Office

Soon you will be undergoing surgery at Coffee Regional Medical Center. You and your physician have elected to have you admitted the morning of your scheduled surgery. In order for us to plan for your care, it is necessary that we meet with you before your surgery. You will be asked to report to the Ambulatory Surgery Department for pre–admission (which includes having a personal interview by a nurse, necessary lab work, COVID testing, x–rays and an EKG done if ordered by your physician). All arrangements will be directed from this area. We look forward to seeing you.

Welcome to the Ambulatory Surgery Department

In order that we might make your stay with us as pleasant as possible, we need to make you and your family aware of the following:

- Proper rest is important to your recovery; therefore, visitors are limited to two (2) per patient. For your safety, we ask that visitors be free of colds, flu, etc. Exception to this Visitation Policy will be dictated according to CRMC's COVID Guidelines.
- ONE PARENT / GUARDIAN MUST BE IN THE DEPARTMENT <u>AT ALL TIMES</u> FOR ALL PATIENTS UNDER 18 YEARS OF AGE.
- A responsible adult must be available to transport the patient home. The driver should be present. Under certain circumstances that the driver cannot be present, they must be within 30 minutes of the hospital.
- Your requests are very important to us. However, once in a while a message gets lost. If your need has not been met within 15 minutes, please ask again.
- We want you to be comfortable and are happy to medicate you, but we do not do it without your request.
 Please let us know if you are experiencing pain or discomfort.
- WE WILL CHECK ON YOU FREQUENTLY. It may sometimes be necessary to awaken you so that we can
 monitor your status.
- This is a smoke-free hospital and smoke-free campus. ABSOLUTELY NO SMOKING IS PERMITTED ON CRMC CAMPUS!
- When discharge orders are received, we will arrange for your discharge as soon as possible. Your
 instructions, prescriptions and answers to any questions will be given to you by your nurse. Please remind us
 to return your home medications and / or valuables.
- For your privacy, all the information concerning your stay at CRMC is confidential. The only information the nurses can give is a condition report (stable-guarded-critical).
- CRMC now offers a pharmacy program, Meds-to-Beds, which operates as an Outpatient Pharmacy.
 This service is available to our Ambulatory Surgery patients as well as patients who will be admitted after surgery. Prescription insurance copayments still apply.
- For your safety, the hospital holds frequent fire drills so that all staff will know what to do should a real fire occur. Please do not be alarmed by the sound of the fire bells or the sound of all the doors being closed. This is just a routine part of the drill.
- Patients are furnished with meals, ice and beverages according to Doctor's orders. There is a cafeteria and snack bar located on the first floor for the family and visitors to use.

Cafeteria Hours: Breakfast – 07:00 a.m. – 09:30 a.m. Lunch – 11:00 a.m. – 02:30 p.m. Dinner – 04:00 a.m. – 07:00 p.m.
